Doc's Sports will provide you with our 1st, 2nd, & 3rd choices to win the 2009 Kentucky Derby. You may play them either as win, place, or show bets or together in what will certainly be a high paying exotic bet. In addition Doc's will provide you with a \$100 recommended bet, the exact same bet Doc himself will be making in Louisville, Kentucky, watching the race in person. This same bet would have grossed you \$720 in the 2005 Belmont Stakes Race. In 2007 we hit the trifecta in the Preakness and superfectain in the Belmont.

With 20 horses in the field, it is almost a certainty that exotic bets will approach five figure payouts. We will focus most of our bankroll on win/place/show bets, as this gives us the best chance to collect. The remaining balance will be a \$1 five horse box and a \$1 trifecta wheel in which we key in on one horse to win the race and have five horses that can come in either second or third in any order. If you do not understand this bet, just tell the teller you would like a \$1 trifecta wheel keying our horse to win over the other five horses for second and third. If the teller still does not understand, just show them your sheet and make sure all five bets add up to \$100.

Many of the legendary jockeys have retired leaving this year's field full of talent, but lacking big race experience. Trainers will again take the spotlight during the week, as many of the big names will saddle horses.
